

Independent Learning Guide

Music

You should be working for a minimum of three-hours per week per subject for independent work beyond what is set in lesson time.

Below is a list of suggested activities:

Music students should practice their instrument for at least a minimum of 30 minutes per day. This should result in 3.5 hours instrument practice a week on top of your usual study tasks.

Act upon the teacher feedback and complete the targets set in the tutorial session to improve and develop your practical work or coursework.

Read and research around your instrument or musical knowledge. Explore other musicians by looking at different genres and specialisms. Find that style you like/dislike and establish a reason.

Complete regular rehearsals with evidence of this in video format.

Music students should complete a practice diary in the form of a google doc or weekly blog.

Watch videos of rehearsal techniques and endeavour to improve all aspects of your musical ability.

Work through and complete ABRSM Theory workbooks.

Use the following resources to support your independent study: Search for examples of art, sculpture, photography and textiles to support the development of your visual ideas.
