

# YEAR 12 PHOTOGRAPHY INDUCTION TASK

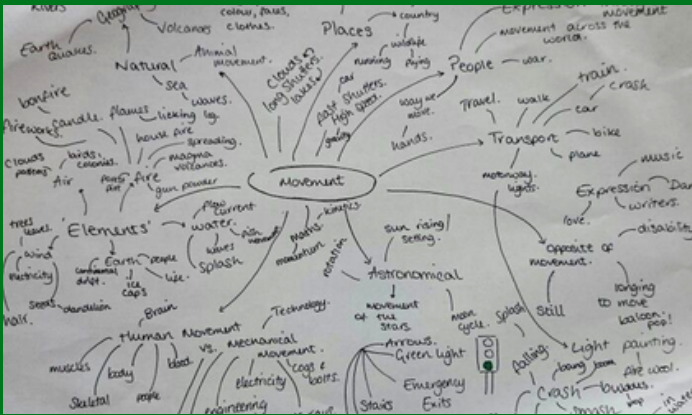

## WHAT DO YOU WANT TO EXPLORE IN A LEVEL PHOTOGRAPHY?

### Task 1: Mind Map

Please create a mind map of ideas you would like to explore in year 12 photography. A level photography moves away from only what work looks like and begins to explore the meaning behind the work, as well as what ideas you want to explore with your photography.

Some examples could include: Decay in nature - how humans are changing the natural landscape, how social media is changing the way we view the world and ourselves, your culture or heritage etc.

### Task 2: Photographers

Find some photographers that explore your initial ideas and what you would like to explore within photography. Gather some images of their work as well as some notes on the ideas they capture within their work and how they have inspired you and can be used within your project. Then create some initial photographs in response to your initial ideas.
